

Bonk! believes basslines to be a societal sort of glue.

Bonk! This band of four 20-somethings is a chaotic collective from Liverpool, fusing psych-funk and nu-jazz. Bassline grooves, driving rhythms, and soaring synths, all tangled up in bouncy guitar riffage, bring a uniquely captivating sound.

Bonk! have established a local buzz through their eclectic social media and exhilarating performances, including a sold-out show at The Cavern. This has led to gig offers from fellow rising talents such as Keg, Opus Kink, and L'Éclair.

Bonk! and team are currently working towards their titanic debut single 'Nepotism' due for release in March 2023. In the runup to this, they're on the lookout for opportunities to expand their audience by working with like-minded individuals such as **you**.

Demos of their existing tracks are available on SoundCloud now.
